Note: The result may vary depending on the type of music and the performance of the devices. (the song is not included). Take your music anywhere to Google's official music service What's the name of this song? MP3 Video Converter Fundevs Convert and resize any audio or video file Powerful music player for Samsung devices Record, listen and share Convert your video files to audio files Discover songs that you can play whenever you want Free Trial5.03 MB Download Start with a song you have downloaded from the Internet, music services or extract a song from any music CD. Magic Vocal Remover can reduce or remove voices from any MP3 song. Using sophisticated waveform sound reversal software technology, echo-free centered voices will be removed, and echo- or reverb-centric voices will be automatically reduced. Any remaining voice provides a pleasant vocal backing effect. Your original recording must be in stereo and the voices must be in the center of the stereo track; voices on the left and right sides are not deleted. After reducing or removing the centered voices, you can write the music to a new CD and use it on any karaoke machine, stereo or portable player. Magic Vocal Remover is a free trial software application of the Audio Encoders/Decoders subcategory, which is part of the Audio and Multimedia category. The app is currently available in English and was last updated in 2010-07-08.
